

Taraka Ram Surala

Full Stack Developer | React Native • Angular • Node.js • AWS

suralatarak@gmail.com | +91 98488 30668 | Andhra Pradesh, India

Self-taught Full Stack Developer with 5+ years building and deploying scalable web and mobile applications across React Native, Angular, Node.js, and MySQL/MongoDB. Experienced in AWS EC2 management, NGINX reverse proxy, SSL setup, and CI/CD with GitHub Actions. Strong background in developing APIs, internal web apps, and production-ready databases. Passionate about delivering high-quality solutions and continuous learning.

WORK EXPERIENCE

CTO (Freelance) · Chitti App · <https://chitti.online>

Apr 2026 – Present

- Engaged as freelance developer for Chitti, a Telugu-first hyperlocal service directory app for Tier-2/Tier-3 towns in Andhra Pradesh; promoted to CTO after taking full ownership of architecture and a ground-up rebuild.
- Rebuilt the entire application solo — React Native (Expo), Node.js/Express, MongoDB, AWS EC2 + NGINX + PM2 + GitHub Actions — after the prior version was taken down a month after its November 2025 launch; relaunched on the Play Store in July 2026.
- Shipped to-let/job listings features, S3-backed image upload flows, and bilingual (English/Telugu) onboarding; resolved Play Store policy compliance and production issues across the stack.

Senior Software Engineer · POTLAM Retail Concepts Pvt Ltd

Jan 2021 – Dec 2025

- Learned Angular and built internal web applications for employee and operations management; continued enhancing and maintaining these tools alongside backend projects.
- Designed and optimized MySQL schemas and queries for production; developed REST APIs in PHP and deployed with NGINX on Linux servers, then migrated services to Node.js (Express) for scalability.
- Migrated core backend services to Node.js (Express) with JWT authentication and middleware; maintained legacy PHP APIs during transition and built scalable APIs powering multi-vertical e-commerce applications.
- Deployed and managed applications on AWS EC2 with NGINX reverse proxy and SSL; implemented CI/CD pipelines with GitHub Actions for automated deployments.
- Enhanced and maintained the POTLAM Android application (live on Play Store), integrating new features with backend services and improving performance.

Engineer – Planning · Tata Projects Limited

Jul 2017 – Dec 2020 · Secunderabad, Telangana

- Promoted from Engineer – Construction to Engineer – Planning within 1 year on large-scale industrial infrastructure projects.

SKILLS

React Native (Expo), Angular, TypeScript
Node.js, Express.js, MongoDB, MySQL
AWS EC2, NGINX, SSL, PM2
CI/CD (GitHub Actions), JWT Authentication
Android Development, Git, Linux, Postman

EDUCATION

Diploma in Electrical & Electronics Engineering

Government Polytechnic College, Vijayawada
09/2014 – 04/2017 · 84.16%

- Participated in a project on work-load calculation.

SSC

Loyola English Medium School
02/2002 – 04/2014 · 9.5 CGPA

ACHIEVEMENTS

- Completed a 2-month industrial training at a 132/33 kV substation, Jangareddigudem (04/2016 – 05/2016).
- Appointed as a Diploma Engineer Trainee at Tata Projects Limited (29 May 2017).
- Promoted to Engineer – Planning at Tata Projects (12/2019).
- Promoted to CTO (freelance) on the Chitti project after leading its full rebuild (2026).
